

JOHN PAUL B. MAULION

REGISTERED AND LICENSED ARCHITECT | BIM COORDINATOR/ SPECIALIST

Metro Manila, Philippines | +639206883938 | maulion16john@gmail.com

Portfolio: <https://johnpaul8maulionjp.wixsite.com/jpbm-architecture>

PROFESSIONAL SUMMARY

Registered and Licensed Architect and BIM Coordinator with extensive experience in architectural design, building information modeling, and project coordination. Highly proficient in Autodesk Revit, Autodesk Construction Cloud, and clash detection. Proven track record of collaborating with multidisciplinary teams to deliver highly detailed architectural, structural, and MEPFS models for high-profile residential, commercial, and data center projects.

TECHNICAL SKILLS & COMPETENCIES

- BIM & Drafting: Autodesk Revit, Autodesk AutoCAD, Trimble SketchUp,
- Project Management & Coordination: Autodesk Construction Cloud (Docs, Design Collaboration, Model Coordination), Procore, Clash Detection (CSD)
- Visualization & Multimedia: Lumion, V-Ray for SketchUp Twinmotion, Adobe Photoshop, Lightroom, Premiere
- Productivity Tools: Microsoft Office Plus, AI tools: Exploring Google AI Studio, Claude, and open source AI.

PROFESSIONAL EXPERIENCE

BIM Coordinator | Architect

Makati Development Corporation | April 2025 – Present

- Directed BIM coordination, clash analysis, and multi-disciplinary spatial coordination, updating project models in real-time to resolve constructability issues.
- Analyzed Working Shop Drawings (WSD) for quantity and cost implications, validating RFIs against BIM data and site conditions to minimize costly rework.
- Expedited approvals for submittals, methodologies, and RFAs through direct, cross-functional coordination with Architects, Engineers, and subcontractors.
- Managed the Submittal Registry, overseeing CADD schedules, secure document routing, and the official issuance of construction plans in compliance with QEHSMS standards.
- Compiled redlined IFC drawings for LOD 500 as-builts and trained incoming staff on comprehensive BIM protocols.

BIM Specialist | Architect

Makati Development Corporation | November 2019 – August 2025

- Modeled Architectural, Structural, and MEP models from conceptual design (LOD 200) to final as-builts (LOD 500), calibrating for real-time site conditions.
- Developed standardized BIM content (parametric families, templates, formulas) and extracted precise construction documents per TSD IFC deliverables.
- Executed spatial coordination and initial clash detection, drafting actionable RFIs to resolve complex design discrepancies.
- Aligned project documentation with execution schedules via the Submittal Registry and integrated redlined drawings for final client handover.
- Accelerated team BIM proficiency by autonomously managing multi-discipline modeling and mentoring new hires through targeted over-the-shoulder training.

KEY WORK PROJECTS

- Commercial & Retail: Evo City Retail Mall Phase 2, Gardencourt Residences Phase 1 & 2 (Mixed-Use Development)
- Residential (Ayala Land Premier): Ciela Amenities at Aera Heights, ANVAYA N10 (Building A), WeeComm Centre
- High-Rise Residential: Alveo Bloom: The Lattice Tower 1 & 2, Avida Verge Tower 2
- Infrastructure/Tech: ePLDT VITRO Data Center (Sitewide)

EDUCATION

Bachelor of Science in Architecture

Batangas State University, The National Engineering University, Main Campus II - Alangilan

LICENSES & CERTIFICATIONS

- Registered and Licensed Architect, Philippines
- Member, United Architects of the Philippines (UAP)
- Autodesk Certificate of Completion | ACC Learning Center (Feb - Apr 2024)
- Glodon Cubicost TAS Certificate | Architecture & Structure (Jan 2026)
